

“Piecing digital evidence together”

Expert Witness

An Expert Witness is an individual who has vast academic or professional experience in their field. An Expert Witness is required to present information in further detail than has already been presented. The staff at IntaForensics have many years of experience in the application of Forensics.

IntaForensics standards in presenting evidence are second to none and as Expert Witnesses our Analysts are qualified to present evidence of opinion as well as evidence of fact. Forensic reports are clear and concise and easily understood by all participants in the legal process.

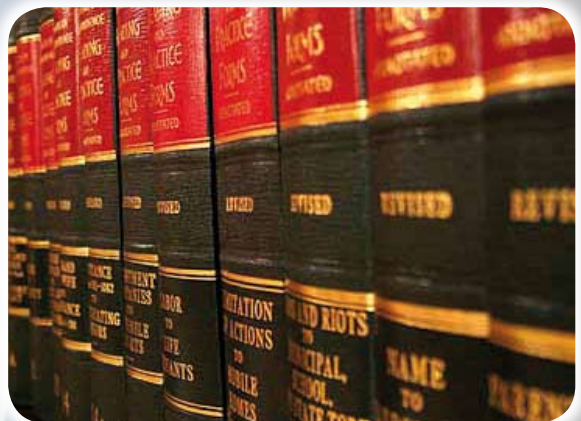

Sometimes, Digital Evidence is a matter of opinion as well as a matter of fact!

Make sure it's an opinion you can trust

• Legally Aided Cases

IntaForensics preparation rates are widely accepted by the Legal Services Commission (LSC) and our case proposals give a clear definition of the work and a full breakdown of costs to assist in the completion of form CDS4 for Prior Authority.
